

COME TALK ABOUT HOW PROVINCETOWN CAN BE A MORE INCLUSIVE & ENGAGED COMMUNITY

The Town of Provincetown is hosting public dialogues as part of the Town's Civil Discourse Initiative.

Responses from 24 interviews and 171 surveys* showed that many people think Provincetown is no longer as friendly and inclusive a community as they'd like. A lot of people expressed they would like to see a more civil online environment, less community divisiveness, feel their voice matters, and explore ways to strengthen community-wide participation and engagement in town issues.

The dialogues are a place to hear directly from people about what is important and what concerns them about civil discourse, inclusivity and community engagement, and to help people work towards a shared direction.

The structured dialogues that will take about 2 hours will be moderated by the MA Office of Public Collaboration. Come share your thoughts and ideas with others at one of the 11 dialogues!

**For a summary report of the interview and survey findings, please go to the Town website under News & Announcement after 4/1/19 Town Meeting.*
