

Notice of Public Informational Meeting

The Town of Provincetown continues to work on a project to plan, design and construct roadway improvements along Shank Painter Road and Route 6 to improve vehicular access and pedestrian and bicycle accommodations. A Public Informational Meeting will be held by the Provincetown Department of Public Works with the assistance of Environmental Partners Group, Inc. to discuss the project.

WHERE: Veteran Memorial Community Center, Room #89
2 Mayflower Street
Provincetown, MA 02657

WHEN: Tuesday, June 19, 2018 at 6 PM

PURPOSE: The purpose of the meeting is to provide the public with another opportunity to become fully acquainted with the goals of the proposed project and to solicit input for consideration as design plans advance. A summary of existing deficiencies and evaluations of the project corridor will be provided. The previously established preferred alternative will be presented to facilitate the conversation and to solicit input. Comments received at past public outreach will be discussed along with subsequent alterations made around existing site constraints. The public will be invited again to discuss their concerns of existing conditions within the project limits and the established preferred alternative and to recommend adjustments and features. After the presentation, the design team will meet one-on-one with local abutters to discuss any site specific concerns. The input will be used to refine the design and to select components or features that will be included in the advanced design presented at future meetings.

PROPOSAL: The proposed project is anticipated to include improvements to traffic circulation and safety, and pedestrian and bicycle facilities along Shank Painter Road from the intersection of Bradford Street to the intersection of Route 6 for an approximate length of 2,900 feet. It will also include a 1.1 mile segment of Route 6 to link pedestrian and bicycle accommodations from Shank Painter Road to Herring Cove Beach and the National Seashore.

In case of inclement weather, meeting cancellation announcements will be posted on the Town Talk Facebook page at <https://www.facebook.com/groups/PtownTownTalk/>
