1-1-2. Repealed or superseded bylaws not to be revived. No bylaw previously repealed or superseded by these bylaws shall be revived by the repeal of any of these bylaws.

1-1-3. Invalidity of any section not to invalidate other sections. The invalidity of any section or provision of these bylaws shall not invalidate any other section or provisions thereof.

1-2. Definitions.

For the purpose of these bylaws, the following terms shall be defined as stated below to the extent that the context of a bylaw permits, unless otherwise defined in a bylaw:

1-2-1. Vote of the town. “Vote of the town” means a motion duly approved by a Town Meeting.

1-2-2. Town employee. “Town employee” means a person who is elected or appointed to a town office in accordance with the General Laws of the Commonwealth, the Town Charter or these bylaws.

Any duly adopted bylaw of the Town of Provincetown or Rule or Regulation of its boards, commissions and committees and officers, the violation of which is subject to a specific penalty, may at the discretion of the town employee who is the appropriate enforcing person, be enforced by the method provided in M.G.L. c.40, §21D.

2-3-1-1. Any rule or regulation of the Provincetown Public Pier Corporation duly enacted shall be deemed a regulation of the Select Board. 11-5. Street numbers on buildings.

The owner or person in control of any building, regardless of use, shall post the street number assigned by the Town Assessor so as to identify the building clearly. Said posting shall consist of numbers and letters where applicable, (not script) that are not less than 3 inches high and of a contrasting nature to the background. (Example: black numbers on white background)

The street number shall be affixed to the building in a location that is most visible from the public or private way, or on a separate post or mailbox in front of the property. If the building is not visible from a public or private way and is accessible via alleyway or lane, the street number shall be affixed to the building and on a post at the entrance to the access way if allowed by the property owner. At a multi-unit property, each unit shall be posted in addition to the assigned street number. Unit posting shall consist of numbers and letters that are not less than three inches high and of a contrasting nature to the background. The unit number shall be affixed to the building nearest to the unit entrance door.

Violation of this bylaw shall be administered as follows: warning notice; no fine; fail to correct within 30-days' notice, \$25.00; fail to correct within 60-days' notice, \$50.00; subsequent offense after 60-day notice, \$50.00 for each day of violation.

11-6. Public ways.

11-6-1. Excavation of public ways. No person shall break or dig up the ground or surface of a town or public way or sidewalk without express permission from the Commissioner of Public Safety or his delegate, who shall require a performance bond sufficient to guarantee restoration of the street following excavation by a private contractor. Upon neglect or violation of any duty imposed under this bylaw, such work may be performed by the Town at the expense of the person charged with the duty, and that expense may be received by the Town in a legal action of contract pursuant to M.G.L. c. 40, §31.

11-6-2. Curb cuts. No person shall break or dig up the ground or surface of a town or public way or sidewalk, or create a new access way to any property which would alter existing parking

and traffic patterns, without the express permission of the Select Board after a duly advertised hearing.

11-6-3. Construction or repairs involving public ways.

11-6-3-1. Blocking off of public ways. No person shall block, wholly or in part, any town or public way for construction, maintenance, or repair without first requesting and having had assigned sufficient police personnel to direct vehicular and pedestrian traffic. The Commissioner of Public Safety or his delegate shall determine the number of personnel to be assigned. The person requesting the service shall reimburse the town for the cost thereof.

11-6-3-2. Construction equipment and material on public ways. No person shall erect any staging for building, deposit construction equipment or building materials, or cause anything related to construction to be erected or built on or over a public way or sidewalk without express permission from the Commissioner of Public Safety or his delegate.

11-6-4. Obstructions within the Public Ways. In order to preserve and promote the safety of the public, no property owner shall permit an encroachment or obstruction within the public way. Whenever the Director of Public Works, the Fire Chief or the Chief of Police determine that the public way is obstructed by a hedge, tree, brush, or similar natural growth, fence, sign, structure, landscape element or object so as to constitute a public safety hazard to vehicular or pedestrian traffic, or access of emergency or public works vehicles, they shall present a report to the Select Board. The Select Board shall give such notice to interested parties, including affected property owners, as they deem appropriate, and following a public hearing in which a finding of a public safety hazard is made by a majority of the board, may thereafter vote to require that the obstruction be trimmed, altered, removed or moved so that the public way shall be unobstructed and clear from any public safety hazard.²⁶

11-6-5. Trees & Shrubs: Height restrictions for traffic safety. In order to preserve and promote the safety of the public, hedge or shrub or other growth on the corner lot or curb obstructing the view of motorists and situated within 15 feet of a public street, or curb- or side line thereof, shall not be permitted by the owner or occupant of the premises to exceed the height of three feet above road grade; any and all trees within said fifteen-foot area (shade trees are to be subject to the provisions of M.G.L. c. 87, §3) shall have limbs trimmed to the height of six feet above road grade, including that any growth overhanging public walkways shall also be trimmed to the property line at the owner's expense. The Department of Public Works (DPW) shall notify the owner of the property of a violation of this chapter by certified mail. If the violation shall not have been cured within 15 days of the date of mailing of the notice, the DPW shall have the right to correct such violation.²⁷

11-7. Private ways.

11-7-1. Standards for acceptance of private roads as public ways. No private road may be laid out or accepted as a public way unless the Director of Public Works has first certified that the condition of said private road meets the standards set forth in the Subdivision Rules and Regulations adopted by the Planning Board pursuant to M.G.L. c. 41, §81K-81GG, inclusive.

11-7-2. Temporary repairs to private ways.

11-7-2-1. Statutory conformance. This bylaw is adopted in conformance with the provisions of M.G.L. c. 40, §6N, to provide for the making of temporary repairs on private ways.

²⁶ Added October, 2011 STM Article 8

²⁷ Added April, 2005 ATM Article 19/Moved and renumbered October, 2011 STM Article 8 (was 13-2-22)

11-7-2-2. Conditions governing repairs. The following conditions shall govern any repairs made pursuant to this bylaw:

Any repairs shall be minor and temporary, as determined by the Director of Public Works, including grading and scraping and the filling of holes and impressions with sand, gravel or other suitable materials and shall not include the construction, reconstruction or resurfacing of such roads.

Drainage shall be included to the extent required by public convenience and necessity as determined by the Director of Public Works.

The Director of Public Works shall make a determination that such repairs are required by public necessity before such repairs may be undertaken.

Such repairs shall only be made if the Select Board receives a petition from abutter(s) who own at least fifty percent (50%) of the linear footage of such way.

Betterment charges may be assessed by the Select Board on the abutter(s) of such way up to an amount equal to the cost of such repairs.

The town shall have no liability as a result of any such repairs, except as may be provided by law, and shall be held harmless on account of any damages whatever caused by such repairs by agreement executed by the abutter(s) who petitioned therefor.

The private way shall have been opened to the public use for two years or more prior to the undertaking of such repairs.

The Town Manager may require a cash deposit equal in amount to the estimated cost of such repairs, as determined by the Director of Public Works, to be paid to the town prior to the commencement of such repairs. The Town Manager may use any collection process deemed necessary in collecting from the abutters.

11-7-2-3. Determination of qualification. The Director of Public Works shall have full discretion in determining which repairs so qualify under this bylaw.

11-8. Automatic-dialing mechanical protection devices and fire protective signaling systems and automatic fire detection systems.

11-8-1. Permission required. No person shall install, maintain or use a protection device that automatically activates the telephone lines of the Police or Fire Departments, without written permission from the Commissioner of Public Safety or his delegate and any of the permission required, including but not limited to, a building permit under 780 CMR 110.1 and 780 CMR 917 and 918 and any other permits or approvals that may be required.

11-8-2. Disapproved.

11-8-3. Shut off device. All alarm systems installed with an outside audible alarm shall be equipped with a device that will shut off the signal within fifteen minutes after the activation of the alarm.

11-8-4. Identification system. Alarms directly connected to the Police Department shall be connected in such a manner that the signal transmitted specifically identifies either fire, burglar or line.

11-8-5. False alarms. The activation of an alarm by error or malfunction shall constitute a violation of this bylaw.

11-8-6. Fines. The owner or person in charge of a building or structure who fails to comply with this bylaw shall be provided with written notice of non-compliance from the Police Department or Fire Department. Any owner or person in charge of a building or structure who fails to comply with this bylaw within 10 business days of written notice of non-compliance shall

be punished by a fine prescribed in the following manner under M.G.L. c. 40, §21D. Within in each calendar year, a non-criminal disposition penalty of a warning for the first offense, a fine of \$150 dollars for the second offense and a fine of \$300 for the third offense and each offense thereafter shall be imposed for false alarm violations under §11-8-5.²⁸

11-9. Stretch Energy Code.²⁹

11-9-1 Adoption. The Town of Provincetown has adopted the provisions of 780 CMR 115.AA of the State Building Code or the “Stretch Energy Code,” as may be amended or modified from time to time.

11-9-2. Purpose. The purpose of the Stretch Energy Code shall be to provide the Town with a more energy efficient alternative to the base energy code otherwise set forth under the State Building Code.

12. WETLANDS PROTECTION BYLAW

12-1. Introduction.

The purpose of this bylaw is to protect the foreshores, wetlands, water resources, and adjoining land areas in the Town of Provincetown by controlling activities deemed by the Conservation Commission likely to have a significant or cumulative effect upon resource area values, including but not limited to the following: public or private water supply, groundwater quantity and quality, flood control, erosion and sedimentation control, storm damage prevention, including coastal storm flowage, water quality, water pollution control, erosion and sedimentation control, fisheries, shellfish, wildlife habitat, rare species habitat, including rare plant species, agriculture, aquaculture, and recreation values, deemed important to the Town (collectively, the “resource area values protected by this bylaw”). This bylaw is intended to utilize the Home Rule authority of the Town to protect additional resource areas, for additional values, with additional standards and procedures stricter than those of the Massachusetts Wetlands Protection Act (M.G.L. c. 131, §40) and Regulations thereunder (310 CMR 10.00).

12-2. Jurisdiction.³⁰

Except as permitted by the Conservation Commission or as provided in this bylaw, no person shall commence to remove, fill, dredge, build upon, degrade, or discharge into, or otherwise alter the following resource areas: any freshwater or coastal wetlands; vegetated and un-vegetated wetlands (both bordering and isolated); marshes; flats; wet meadows; bogs; swamps; vernal pools; banks; reservoirs; lakes; ponds of any size; rivers; streams; creeks; beaches; dunes; estuaries; the ocean; lands under water bodies; lands subject to flooding or inundation by groundwater or surface water; lands subject to tidal action, coastal storm flowage, or flooding; any and all areas protected by the Massachusetts Endangered Species Act (MESA) and as defined by the Natural Heritage and Endangered Species Act Program (NHESP); and the one-hundred foot Buffer Zone to any of the aforementioned resource areas or lands abutting any of the aforesaid resource areas as set out in §12-7 (collectively the “resource areas protected by this bylaw”). Said resource areas shall be protected whether or not they border surface waters. In the event that the Commission determines that an activity occurring beyond the limit of jurisdiction noted above is likely to have, is having or has had a significant effect on the wetlands values of a resource area, the Commission may require the filing of a Notice of Intent or a Request for Determination of Applicability for that activity. In determining whether a resource area is subject to the provisions of this bylaw, the origin of the wetland, whether natural or manmade, is not a relevant factor.

12-3. Conditional exceptions.

12-3-1. Public utility facilities. The application and permit required by this bylaw shall not be required for maintaining, repairing, or replacing, but not substantially changing or enlarging, an existing and lawfully located structure or facility used in the service of the public to provide electric, gas, telephone, telegraph, or other telecommunication services, provided that written notice has been given to the Commission prior to commencement of work, and provided that the work conforms to performance standards and design specifications in regulations adopted by the Commission.

³⁰ Amended April, 2011 ATM Article 29

12-3-2. Agricultural uses. The application and permit required by this bylaw shall not be required for work performed for normal maintenance or improvement of land which is lawfully in agricultural use at the time the work takes place.

12-3-3. Emergency project. The application and permit required by this bylaw shall not be required for emergency projects necessary for the protection of the health and safety of the public, provided that the work is to be performed by or has been ordered to be performed by an agency of the Commonwealth or a political subdivision thereof; provided that advance notice, oral or written, has been given to the Commission prior to commencement of work or within 24 hours after commencement; provided that the Commission or its agent certifies the work as an emergency project; provided that the work is performed only for the time and place certified by the Commission for the limited purposes necessary to abate the emergency; and provided that within 21 days of commencement of an emergency project, a permit application shall be filed with the Commission for review as provided by this bylaw. Upon failure to meet these and other requirements of the Commission, the Commission may, after notice and public hearing, revoke or modify an emergency project approval and order restoration and mitigation measures.

12-3-4. Exceptions contained in the act. Other than stated in this section, the exceptions provided in the Wetlands Protection Act (M.G.L. c. 131 §40) and Regulations (31 CMR 10.00) shall not apply under this bylaw.

12-4. Applications for permits and requests for determination.

12-4-1. Application. Written application shall be filed with the Commission to perform activities affecting resource areas protected by this bylaw. The permit application shall include such information and plans as are deemed necessary by the Commission to describe proposed activities and their effects on the resource areas protected by this bylaw. No activities shall commence without receiving and complying with a permit issued pursuant to this bylaw. The Commission in an appropriate case may accept as the permit application and plans under this bylaw the Notice of Intent and plans filed under the Wetlands Protection Act (M.G.L. c. 131 §40) and Regulations (310 CMR 10.00).

12-4-2. Request for determination. Any person desiring to know whether or not a proposed activity or an area is subject to this bylaw may in writing request a determination from the Commission. Such a Request for Determination (RFD) shall include information and plans as are deemed necessary by the Commission.

12-4-3. Filing fee. At the time of a permit application or RFD, or application for Certificate of Compliance, the applicant shall pay a filing fee specified in Regulations of the Commission. The fee is in addition to that required by the Wetlands Protection Act (M.G.L. c. 131 §40) and Regulations (310 CMR 1.00). The fee shall be deposited in a dedicated account, for use only for wetland protection activities, from which the Commission may withdraw funds without further appropriation.

12-4-4. Consultant fee. Upon receipt of a permit application or RFD, or at any point during the hearing process, the Commission is authorized to require an applicant to pay a fee for the reasonable costs and expenses borne by the Commission for specific expert engineering and other consultant services deemed necessary by the Commission to come to a final decision on the application. This fee is called the "consultant fee." The specific consultant services may include, but are not limited to, performing or verifying the accuracy of resource area survey and delineation; analyzing resource area functions and values, including wildlife habitat evaluations, hydro geologic and drainage analysis; and researching environmental or land use law. The

exercise of discretion by the Commission in making its determination to require the payment of a consultant fee shall be based upon its reasonable finding that additional information acquirable only through outside consultants would be necessary for the making of an objective decision. Any applicant aggrieved by the imposition of, or size of, the consultant fee, or any act related thereto, may appeal according to the provisions of the Massachusetts General Laws.

12-4-5. Method of payment. The Commission may require the payment of the consultant fee at any point in its deliberations prior to a final decision. If a consultant fee account is authorized by a special act, the applicant’s fee shall be put into such account, and the Commission may draw upon that account for specific consultant services approved by the Commission at one of its public meetings. Any unused portion of the consultant fee shall be returned to the applicant unless the Commission decides at a public meeting that additional services will be required.

12-4-6. Waiver of fee. The Commission may waive the filing fee, consultant fee, and costs and expenses for a permit application or RFD filed by a government agency.

12-4-7. Fee schedule. The maximum consultant fee charged to reimburse the Commission for reasonable costs and expenses shall be according to the following schedule:

Project costs	Maximum fee
Up to \$ 100,000	\$ 500
\$ 100,001 - \$ 500,000	\$ 2,500
\$ 500,001 - \$1,000,000	\$ 5,000
\$1,000,001 - \$1,500,000	\$ 7,500
\$1,500,001 - \$2,000,000	\$10,000

Each additional \$500,000 project cost increment (over \$2,000,000) shall be charged an additional \$2,500 maximum fee per increment. The project cost means the estimated, entire cost of the project including, but not limited to, building construction, site preparation, landscaping, and all site improvements. The consultant fee shall be paid pro rata for that portion of the project cost applicable to those activities within resource areas protected by this bylaw. The project shall not be segmented to avoid being subject to the consultant fee. The applicant shall submit estimated project costs at the Commission’s request, but the lack of such estimated project costs shall not avoid the payment of the consultant fee.

12-5. Notice and hearings.³¹

12-5-1. Notice. Any person filing a permit application or a RFD with the Commission at the same time shall give written notice thereof, by hand delivery or certified mail, return receipt requested, or by certificates of mailing to all abutters at their mailing addresses shown on the most recent applicable tax list of the assessors, including owners of land directly opposite on any public or private street or way, and abutters to the abutters within 100 feet of the property line of the applicant, including any in another municipality or across a body of water.³² The notice to abutters shall have enclosed a copy of the permit application or request, with plans, or shall state where copies may be examined and obtained by abutters. An affidavit of the person providing such notice, with a copy of the notice mailed or delivered, shall be filed with the Commission. When a person requesting a determination is other than the owner, the request, the notice of the hearing, and the determination itself shall be sent by the Commission to the owner as well as to the person making the request.

³¹ Amended April, 2011 ATM Article 29

³² Amended April 7, 2008 ATM Article 24

12-5-2. Public hearing. The Commission shall conduct a public hearing on any permit application or RFD, with written notice given at the expense of the applicant, not less than five business days prior to the hearing, in a newspaper of general circulation in the municipality. The Commission shall commence the public hearing 21 days from its' posted deadline for filing applications, upon receipt of a completed permit application or RFD unless an extension is authorized in writing by the applicant. The Commission shall issue its permit or determination in writing within 21 days of the close of the public hearing thereon unless an extension is authorized in writing by the applicant. The Commission in an appropriate case may combine its hearing under this bylaw with the hearing conducted under the Wetlands Protection Act (M.G.L. c. 131 §40) and Regulations (310 CMR 10.00).

12-5-3. Continuation of hearing. The Commission shall have authority to continue the hearing to a certain date announced at the hearing, for reasons stated at the hearing, which may include receipt of additional information from the applicant or others deemed necessary by the Commission in its discretion, or comments and recommendations of the boards and officials listed in Section 12-6-1.

12-6. Coordination with other boards.

Any person filing a permit application or RFD with the Commission shall provide a copy thereof at the same time, by certified mail (return receipt requested) or hand delivery, to the Conservation Agent, who shall distribute copies thereof to the appropriate regulatory boards, the cost of which copies shall be at the applicant's expense.³³ A copy shall be provided in the same manner to the Conservation Commission of the adjoining municipality, if the application or RFD pertains to property within 200 feet of that municipality. An affidavit of the person providing notice, with a copy of the notice mailed or delivered, shall be filed with the Commission. The Commission shall not take final action until the boards and officials have had 14 days from receipt of notice to file written comments and recommendations with the Commission, which the Commission shall take into account but which shall not be binding on the Commission. The applicant shall have the right to receive any comments and recommendations, and to respond to them at a hearing of the Commission, prior to final action.

12-7. Permits and conditions.

12-7-1. Issuance of permit. If the Commission, after a public hearing, determines that the activities which are subject to the permit application or the land and water uses which will result therefrom are likely to have a significant individual or cumulative effect upon the resource area values protected by this bylaw, the Commission, within 21 days of the close of the hearing, shall issue or deny a permit for the activities requested. If it issues a permit, the Commission shall impose conditions which the Commission deems necessary or desirable to protect those values, and all activities shall be done in accordance with those conditions. The Commission shall take into account the cumulative adverse effects of loss, degradation, isolation, and replication of protected resource areas throughout the community and the watershed, resulting from past activities, permitted and exempt, and foreseeable future activities.

12-7-2. Denial of permit. The Commission is empowered to deny a permit for failure to meet the requirements of this bylaw; for failure to submit necessary information and plans requested by the Commission; for failure to meet the design specifications, performance standards, and other requirements in regulations of the Commission; for failure to avoid or

³³ Amended April 7, 2008 ATM Article 24

prevent unacceptable significant or cumulative effects upon the resource area values protected by this bylaw; and where no conditions are adequate to protect those values.

12-7-3. Presumed importance of buffer zone. Lands within 100 feet of rivers, ponds and lakes, and lands within 100 feet of other resource areas, are presumed important to the protection of these resources because activities undertaken in close proximity to resource areas have a high likelihood of adverse impact upon the wetland or other resource, either immediately, as a consequence of construction, or over time, as a consequence of daily operation or existence of the activities. These adverse impacts from construction and use can include, without limitation, erosion, siltation, loss of groundwater recharge, poor water quality, and loss of wildlife habitat. The Commission therefore may require that the applicant maintain a strip of continuous, undisturbed vegetative cover within the 100-foot area, unless the applicant convinces the Commission that the area or part of it may be disturbed without harm to the values protected by the bylaw.

12-7-4. Practicable alternatives. In the review of areas within 100 feet of rivers and streams, no permit issued hereunder shall permit any activities unless the applicant, in addition to meeting the otherwise applicable requirements of this bylaw, has proved by a preponderance of the evidence that (1) there is no practicable alternative to the proposed project with less adverse effects, and that (2) such activities, including proposed mitigation measures, will have no significant adverse impact on the areas or values protected by this bylaw. The Commission shall regard as practicable an alternative, which is reasonably available and capable of being done after taking into consideration the proposed property use, overall project purpose (e.g., residential, institutional, commercial, or industrial purpose), logistics, existing technology, costs of the alternatives, and overall project costs.

12-7-5. Avoidance of wetlands loss or alteration. To prevent wetlands loss, the Commission shall require applicants to avoid wetlands alteration wherever feasible; shall minimize wetlands alteration; and, where alteration is unavoidable, shall require full mitigation. The Commission may authorize or require replication of wetlands as a form of mitigation, but only with adequate security, professional design, and monitoring to assure success, because of the high likelihood of failure of replication.

12-7-6. Expiration of permit. A permit shall expire three years from the date of issuance. Notwithstanding the above, the Commission in its discretion may issue a permit expiring five years from the date of issuance for recurring or continuous maintenance work, provided that annual notification of time and location of work is given to the Commission. Notwithstanding the above, a permit may contain requirements which shall be enforceable for a stated number of years, indefinitely, or until permanent protection is in place, and shall apply to all owners of the land.

12-7-7. Revocation of permit. For good cause the Commission may revoke or modify a permit or determination issued under this bylaw after notice to the holder of the permit or determination, notice to the public, abutters, and town boards, pursuant to §V and §VI, and a public hearing.

12-7-8. Coordination of permit with order of conditions. The Commission in an appropriate case may combine the permit or determination issued under this bylaw with the Order of Conditions or Determination of Applicability issued under the Wetlands Protection Act (M.G.L. c. 131 §40 and Regulations (310 CMR 10.00)).

12-7-9. Recording of permit. No work proposed in any permit application shall be undertaken until the permit issued by the Commission with respect to such work has been

recorded in the registry of deeds or, if the land affected is registered land, in the registry section of the land court for the district wherein the land lies, and until the holder of the permit certifies in writing to the Commission that the permit has been recorded, or provides the Commission with a copy of the recording information or other evidence of recordation with the appropriate registry.

12-8. Regulations.

After public notice and public hearing, the Commission shall promulgate rules and regulations to effectuate the purposes of this bylaw effective when voted and filed with the town clerk. Failure by the Commission to promulgate such rules and regulations or a legal declaration of their invalidity by a court of law shall not act to suspend or invalidate the effect of this bylaw. At a minimum, these regulations shall define key terms in this bylaw not inconsistent with the bylaw and procedures governing the amount and filing of fees.

12-9. Definitions.³⁴

12-9-1. Defined terms. The following definitions shall apply in the interpretation and implementation of this bylaw.

12-9-1-1. Coastal & inland banks. “Coastal Bank” shall mean the seaward face or side of any elevated landform, other than a coastal dune, which lies at the landward edge of a coastal beach, land subject to tidal action, or other wetland. “Inland Bank” shall mean the portion of the land surface which normally abuts and confines a water body. It occurs between a water body and a vegetated bordering wetland and adjacent flood plain, or, in the absence of these, it occurs between a water body and an upland. A bank may be partially or totally vegetated, or it may be comprised of exposed soil, gravel or stone. The upper boundary of a Bank is the first observable break in the slope or the mean annual flood level, whichever is lower. The lower boundary of a Bank is the mean annual low flow level. The topography, soil structure, and plant community composition and structure of coastal and inland banks can provide the following important wildlife habitat functions: 1. Food, shelter and migratory and breeding areas for wildlife. 2. Overwintering area for mammals and reptiles.

12-9-1-2. Vernal pool. “Vernal pool” shall include a confined basin depression which, at least in most years, holds water for a minimum of two continuous months during the spring and/or summer, and which is free of adult fish populations, as well as the area within 100 feet of the mean annual boundary of such a depression, regardless of whether the site has been certified by the Massachusetts Division of Fisheries and Wildlife. Vernal pools shall include those mapped and certified by the Massachusetts Natural Heritage and Endangered Species Program as well as those areas identified in the field as eligible for certification by a professional wetland biologist or other expert.

12-9-1-3. Rare species. “Rare species” shall include, without limitation, all vertebrate and invertebrate animal and plant species listed as endangered, threatened, or of special concern by the Massachusetts Division of Fisheries and Wildlife, regardless of whether the site in which they occur has been previously identified by the Division.

12-9-1-4. Person. “Person” shall include any individual, group of individuals, association, partnership, corporation, company, business organization, trust, estate, the Commonwealth or political subdivision thereof to the extent subject to town bylaws, administrative agency, public

³⁴ Amended by April 4, 2011 ATM Article 29

or quasi-public corporation or body, this municipality, and any other legal entity, its legal representatives, agents, or assigns.

12-9-1-5. Alter. “Alter” shall include, without limitation, the following activities when undertaken to, upon, within or affecting resource areas protect by this bylaw:

1. Removal, excavation, or dredging of soil, sand, gravel, or aggregate materials of any kind.
2. Changing of preexisting drainage characteristics, flushing characteristics, salinity distribution, sedimentation patterns, flow patterns, or flood retention characteristics.
3. Drainage, or other disturbance of water levels or water table. Dumping, discharging, or filling with any materials which may degrade water quality.
4. Placing of fill, or removal of material, which would alter elevation.
5. Driving of piles, erection, or repair of buildings, or structures of any kind.
6. Placing of obstructions or objects in water.
7. Destruction of animal and/or plant life, including cutting of trees.
8. Changing temperature, biochemical oxygen demand, or other physical, biological, or chemical characteristics of any waters.
9. Any activities, changes, or work which may cause or tend to contribute to pollution of any body of water or groundwater.
10. Incremental activities which have, or may have, a cumulative adverse impact on the resource areas protected by this bylaw.
11. Use of fertilizers, pesticides, herbicides and fungicides.

12-9-1-6. Isolated vegetated wetland. Isolated vegetated wetland is any area where surface or ground water or ice at or near the surface of the ground and greater than 300 square ft. which supports a plant community (cover) comprise of 50% or greater of wetland species, or which in the judgment of the Commission supports a significant community of wetland vegetation.

12-9-1-7. Passive recreation. Passive recreation refers to non-consumptive, non-motorized uses such as wildlife observation, walking, biking, canoeing and fishing as well as trail-based hiking, mountain biking, horseback riding, recreation generally encompasses the less intensive range of outdoor activities compatible with preserving natural resource functions such as wildlife habitat and floodplain protection. Passive recreation is that which emphasizes the open-space aspect of a park and which involves a low level of development, including picnic areas and trails.³⁵

12-9-2. Consistency with wetlands protection act. Except as otherwise provided in this bylaw or in regulations of the Commission, the definitions of terms in this bylaw shall be as set forth in the Wetlands Protection Act (M.G.L. c. 131 §40) and Regulations (310 CMR 10.00).

12-10. Security.

12-10-1. Performance and observation of conditions. As part of a permit issued under this bylaw, in addition to any security required by any other municipal or state board, agency, or official, the Commission may require that the performance and observance of the conditions imposed thereunder (including conditions requiring mitigation work) be secured wholly or in part by one or more of the methods described below:

By a proper bond or deposit of money or negotiable securities or other undertaking of financial responsibility sufficient in the opinion of the Commission, to be released in

³⁵ Amended by April 7, 2008 ATM Article 24

whole or in part upon issuance of a Certificate of Compliance for work performed pursuant to the permit.

By accepting a conservation restriction, easement, or other covenant enforceable in a court of law, executed and duly recorded by the owner of record, running with the land to the benefit of the Town whereby the permit conditions shall be performed and observed before any lot may be conveyed other than by mortgage deed. This method shall be used only with the consent of the applicant.

12-11. Enforcement.

12-11-1. Prohibition. No person shall remove, fill, dredge, build upon, degrade, or otherwise alter resource areas protected by this bylaw, or cause, suffer, or allow such activity, or leave in place unauthorized fill, or otherwise fail to restore illegally altered land to its original condition, or fail to comply with a permit or an enforcement order issued pursuant to this bylaw.

12-11-2. Entry on property. The Commission, its agents, officers, and employees shall have authority to enter upon privately owned land for the purpose of performing their duties under this bylaw and may make or cause to be made such examinations, surveys, or sampling as the commission deems necessary, subject to the constitutions and laws of the United States and the Commonwealth.

12-11-3. production or preproduction) to be audible at a distance of fifty (50) feet or more from the point of origin.

The Licensing Board may waive any part of this noise Control bylaw for a temporary licensed public event if, in the judgment and discretion of the Licensing Board, the noise that the event will create in excess of the noise level limits established under the Noise Control bylaw is offset by the benefits of the event to the participants or the public and the noise of the event will not cause undue hardship or disturbance to the surrounding area. Events covered by this bylaw will not extend beyond midnight nor begin prior to 10 AM. The Licensing Board can stipulate any time it deems appropriate within this time frame depending on the expected noise level and impact on surrounding area. Residential private parties limited to invitation only are not affected by this bylaw as they are not licensed by the Licensing Board. They are still governed as to noise or nuisance stipulations of these bylaws under 13-1-2 and 13-2-6. The Licensing Board may impose, on the grant of a temporary waiver, terms and conditions appropriate to reduce the impact of the noise level exception. An application for a temporary waiver shall be filed with the Town Clerk. The applicant shall certify that notice of such temporary waiver application has been provided to all properties contiguous, or likely to be affected by the event, to the property where the event will occur. The applicant must also place a notice in the local media advising of the request for waiver at least two weeks prior to any hearing on the waiver by the Licensing Board. The applicant shall further certify that the Police Department has been consulted with respect to the event and has approved as to form the application for a waiver with the understanding that once the event is in process, complaints could arise necessitating action on the part of the Police, i.e., immediate consultation with the applicant to ameliorate the sound conditions if the complaints are numerous and clearly justified in the discretionary opinion of the responding Police. The application for a temporary waiver affects all public events likely to produce sound levels that will affect the average person in a negative manner and in no instance will a waiver application be considered by the Licensing Board less than 60 days preceding any event. Applicants may receive more than one waiver in a year but the Licensing Board may recall any applications during the event year if complaints exceed the benefit to the public as determined by the Licensing Board as advised by the Police Department. The Licensing Board

13-4-2. Personal watercraft in Provincetown Harbor.⁶⁰

13-4-2-1. Definitions.

13-4-2-1-1. As used in this bylaw, the term "personal watercraft" means a vessel propelled by a water-jet pump or other machinery as its primary source of propulsion that is designed to be operated by a person sitting, standing or kneeling on the vessel rather than being operated in the conventional manner by a person sitting or standing inside the vessel.

13-4-2-1-2. As used in this bylaw, the term "Provincetown Harbor" means the waters extending from the shores of Provincetown to a line drawn from Long Point to the Provincetown/Truro line.

13-4-2-2. Except as provided in §13-4-2-3 below, the operation of personal watercraft is prohibited in the waters of the Town of Provincetown in the following areas:

Within the boundaries of the Cape Cod National Seashore as set forth in Public Law 87-126, 7 August 1961, 75 Stat. 293, and as most recently surveyed by the U.S. Department of Interior.

(b) On the tidal waters of Provincetown Harbor and any adjoining river, inlet, cove, pond, embayment or harbor westerly of a line running from the Provincetown Truro town line to Long Point Light, with the exception of a marked channel in which personal water craft may pass through Provincetown Harbor operating at lawful speed. Said marked channel shall be the Federal Channel between red #4 marker on the west end of the breakwater to Long Point Buoy marker green #3 within Provincetown Harbor, as shown on a plan on file in the office of the Town Clerk. Personal watercraft shall traverse at headway speed only between the red #4 mark at the west end of the breakwater and the boat ramp, boatyard, fuel dock, marina or boat rental business. ⁶⁰ Approved April 1, 2002, STM Article 14

13-4-2-4. Personal watercraft may be operated in the above areas described in §13-4-2-2 for the purpose of enforcement, search and rescue, training, or other emergency, provided it is under the direction of a duly authorized federal, state or local law enforcement or emergency response agency, or other authorized official.

13-4-2-5. This bylaw shall be enforced by the Provincetown Harbormaster or his designee, the Provincetown Police Department, or the Massachusetts Environmental Police.

13-4-2-6. The invalidity of any section or provision of this bylaw shall not invalidate any other section or provision hereof.

13-4-3. Sewage/septic discharge into harbor. No person shall discharge or cause to be placed any sewage or septic waste within the waters of Provincetown.

13-5. Prohibited use of bicycles.⁶¹

13-5-1. Bicycle removal program.

13-5-1-1. Purpose. The Town of Provincetown regulates bicycle parking for short term storage only. For the purposes of this bylaw, the term “short-term parking” shall be defined as parking a bicycle at a Town bicycle rack for a period of less than seven (7) continuous days. The Principal intent of these regulations is two-fold; first to ensure that short-term parking for bicyclists is available in the town and second, to ensure that bicycles are parked in a safe and secure manner. One of the important ways of meeting these intentions is to remove abandoned bicycles that are taking up valuable spaces which could be used by other bicyclists. In addition, it should be clear that the bicycle spaces in town are not intended for long-term storage. Finally, the regulations address the fact that parking a bicycle to some fixtures is not acceptable: trees can be damaged, benches rendered unusable, or hand railings be unavailable to those who need them most. Bicycles in violation of these regulations should be reported to the Provincetown Police Department. An abandoned bicycle (that meets the established criteria), or one that is in violation of the time (7 days) restrictions will be tagged and removed. A bicycle determined to be inoperative will be removed by the Department of Public Works for Disposal. A bicycle determined to be operative will be held at the Provincetown Police Department of 30 days.

13-5-1-2. Procedure

Bicycle parking on public property.

- a. Bicycles are permitted to park against a street sign pole, or on a bicycle rack or other facility specifically intended for that purpose.
- b. Under no circumstances shall a bicycle obstruct the pedestrian path of travel or handicap access ramps. A parked bicycle must leave at least 36 inches of an obstruction free path of travel.
- c. Bicycles are not permitted to be parked to: fire hydrants, hand railings, benches, trees, trash receptacles and parking meters. Bicycles in violation of the above regulations shall be tagged and removed immediately if presenting a public safety hazard as noted in this section.
- d. Bicycles shall not be parked longer than seven consecutive days at the same location on any bike rack, public way or sidewalk. If the bike is determined to be a working bike, a tag will be affixed, and after a 72-hour time period, be removed for storage purposes. The Department of Public Works (DPW) will transport the bike to Police Headquarters, and the sector officer will generate a report, identifying the bike and removal date. The report will include make, model,

⁶¹ Approved April, 2013, ATM Article 23

color, serial number (if possible) and a brief description of the bikes condition. The serial number will be checked with the Criminal Justice Information system. The Property/Evidence Officer will log the bike into the IMC System and secure the bike for safekeeping in a designated storage area for a period of thirty days. If the bike is not claimed in this period, the Property Evidence Officer will release the bike for auction.

- e. No motorized vehicles shall be parked on a bicycle rack or other facility specifically designed and intended for bicycle parking. Violators are subject to immediate removal by the Provincetown Police Department. Motorized vehicles parked on sidewalks will be issued a parking citation and towed.

Abandoned or inoperable bicycle on public property. A bicycle with one or more of the following defects will be considered abandoned and can be removed and destroyed:

- a. No tires or wheels
- b. Have warped wheels or frame
- c. Missing, rusted or broken chain in such a state that renders the bicycle inoperative.
- d. Missing or warped handle bars.

13-6 Provincetown Single-Use Plastic Bag Reduction Bylaw⁶²

13-6-1. Purpose and Intent

The use and disposition of single-use plastic bags, including bags made of high-density polyethylene, low-density polyethylene, “biodegradable,” “compostable” or “oxo-biodegradable” materials, have significant impacts on the marine and terrestrial environment of all coastal communities, including but not limited to:

- 1) Contributing to the injury and potential death of marine and terrestrial animals through ingestion and entanglement;
- 2) Contributing to pollution and degradation of the terrestrial and coastal environment;
- 3) Clogging storm drainage systems; and
- 4) Creating mechanical and disposal burdens for solid waste collection and recycling facilities.

Studies have shown that even those plastic bags made from “biodegradable,” “compostable” or “oxo-biodegradable” materials, which all require very specific and controlled environments to fulfill their claims, are for all intents and purposes identical to single-use high or low-density polyethylene plastic bags in their potential impacts to the environment as set forth above. Bags of these types are therefore also subject to the requirements herein.

The goal of this Bylaw is to protect, conserve and enhance the Town’s unique natural beauty and irreplaceable natural resources through the elimination, within the retail sector, of certain single-use plastic bags and by encouraging the use of reusable bags within the retail and municipal sectors. Therefore the Town of Provincetown seeks to phase out the use of single-use plastic bags by April 15, 2015.

13-6-2. Definitions

An “Establishment” means any business in Provincetown selling goods, articles, food or personal services to the public, including but not limited to markets, restaurants, bars, take-out food purveyors, merchandise retailers, florists and galleries.

⁶² Approved October 2014, STM Article 8

A “single-use plastic bag” for the purposes of this Bylaw is defined as a bag made of plastic, including but not limited to bags made of high-density polyethylene, low-density polyethylene, “biodegradable,” “compostable” or “oxo-biodegradable” materials, with a thickness of less than 1.5 mils provided at the checkout stand, cash register, point of sale or other point of departure and that are intended for the purpose of transporting food or merchandise out of the Establishment. Single-use plastic bags **do not include** plastic bags which are a maximum of 11 inches by 17 inches and are without handles provided to the customer:

- (1) To transport produce, bulk food, candy or meat from a department within a store to the point of sale;
- (2) To hold prescription medication dispensed from a pharmacy;
- (3) To segregate food or merchandise that could damage or contaminate other food or merchandise when placed together in a point-of-sale bag;
- (4) To distribute newspapers; or
- (5) To protect clothing in dry-cleaning establishments.

A “reusable bag” is defined as a bag with handles that is specifically designed and manufactured for multiple reuse and is either:

- (1) Made of cloth or other machine washable fabric;
- (2) Made of durable plastic that is at least 1.5 mils thick; or
- (3) Other durable material suitable for reuse.

13-6-3. Use Regulations

Single-use plastic bags shall not be distributed or sold at any Establishment beginning April 15, 2015, by which date existing stock of single-use plastic bags shall be phased out; any stock remaining after that date shall be disposed of properly (e.g., recycled or returned to manufacturer) by the Establishment.

Customers are encouraged to bring their own reusable shopping bags to Establishments.

Establishments may provide paper or reusable bags at no charge, or charge a fee which would be kept by the Establishment, as they so desire.

13-6-4. Administration and Enforcement

This Bylaw may be enforced by any Town police officer, enforcement officer or agent of the Board of Health or Licensing Department.

This Bylaw may be enforced through any lawful means in law or in equity, including, but not limited to, non-criminal disposition pursuant to G.L. c. 40, §21D and Chapter 2 of the Town’s General Bylaws. If non-criminal disposition is elected, then any Establishment which violates any provision of this Bylaw shall be subject to the following penalties:

- | | |
|--------------------------------|---------------------|
| First Offense: | \$50 fine |
| Second Offense: | \$100 fine |
| Third and Subsequent Offenses: | \$200 for each fine |

Subsequent offenses shall be determined as offenses occurring within two years of the date of the first reported offense. Each day or portion thereof shall constitute a separate offense. If more than one, each condition violated shall constitute a separate offense.

13-7. Polystyrene Reduction Bylaw

13-7-1. Purpose and Intent

The use and disposal of polystyrene has significant impacts on our Town and our environment, including but not limited to:

1. Harm to marine and terrestrial animals through ingestion.

2. Pollution and degradation of the terrestrial and coastal environment.
3. Human exposure to styrene, which is derived from benzene and used in the manufacture of polystyrene. Occupational studies have shown risks for leukemia and lymphoma, and genetic damage to white blood cells. Styrene is “reasonably anticipated to be a human carcinogen” (US Department of Health and Human Services, 2016).
4. Disposal burdens of difficult to recycle plastics for solid waste collection and recycling facilities.

With the goal of protecting the health of its citizens and the unique natural beauty and irreplaceable natural resources of the Town of Provincetown, and given that inexpensive, safe alternatives to polystyrene are easily obtained, the Town will phase out the use of certain polystyrene plastics by June 1, 2019.

13-7-2. Definitions

“Polystyrene Disposable Food Services Containers and Cutlery” shall mean single-use disposable products for serving or transporting food or beverages, including without limitation take-out foods and/or leftovers from partially consumed meals prepared by a restaurant and/or retail food establishment. This includes but is not limited to plates, cups, bowls, trays, hinged or lidded containers, straws, cup lids, and cutlery. It shall also include single-use disposable packaging for uncooked foods prepared on the premises, as well as disposable catering trays.

It bears the recycling number 6.

“Food Establishments” shall mean any operations, including without limitation schools, farmers markets and other public venues that store, prepare, package, serve, vend or otherwise provide food for human consumption. Any establishment requiring a permit to operate in accordance with the State Food Code, 105 CMR 590.000, et. seq., shall be considered Food Establishments for the purpose of this bylaw.

“Retail Establishments” shall mean any commercial business facility that sells goods directly to consumers including but not limited to grocery stores, pharmacies, liquor stores, convenience stores, retail stores and vendors selling clothing, food, and personal items, dry cleaning services, theaters and all other food services establishments.

“Public Venues” shall mean operations including but not limited to meeting halls, churches, Town offices, the Senior Center, Recreation Department, Library and Provincetown Elementary School.

13-7-3. Use Regulations

Polystyrene disposable food service containers, cutlery, and new polystyrene packing peanuts shall not be used or sold by food establishments and/or retail establishments within the Town of

Provincetown on or after June 1, 2019. Any stock remaining after that date shall be accepted for disposal free of charge, through June 30, 2019, at the Provincetown Transfer Station/Recycling Center.

This bylaw shall not apply to:

1. Polystyrene packing peanuts and foam packaging reused from shipments coming to Provincetown.
2. Prepackaged meat and produce trays, egg cartons, and other food or beverage products bought from wholesaler or out of Town supplier.
3. Polystyrene foam freezer chests.

13-7-4. Administration And Enforcement

Penalties And Enforcement of the Town's General Bylaws. If non-criminal disposition is elected, then any establishment which violates any provision of this bylaw shall be subject to the following penalties:

First Offense:	\$100 fine
Second Offense:	\$200 fine
Third and Subsequent Offenses:	\$300 fine for each offense

Offenses occurring within two years of the date of first reported offense will be considered as subsequent offenses. Each day or portion thereof shall constitute a separate offense, to do or act anything thereon.

The Board of Health, after a hearing conducted in accordance with the procedures set forth in 105 CMR 590.14 and 590.15, may suspend or revoke the food service permit for any establishment failing to comply with this bylaw.

13-7-5. Severability

If any provision of this Bylaw is declared invalid, or unenforceable, the other provisions shall not be affected thereby.

13-8. Single Use Plastic Straw Ban

13-8-1. Intentions and Findings.

It has been found that:

- 1) Plastic straws are rarely recycled.
- 2) Provincetown's proximity to the ocean means that plastic straws that go uncollected by DPW have a high chance of ending up on the beaches or in the bay.
- 3) Plastic straws take up to 200 years to degrade and are never fully absorbed by the planet.
- 4) The degrading of plastic straws releases chemicals toxic to wildlife and the environment the United States uses 500 million straws per day.
- 5) There is currently a national movement to reduce and ban the use of plastic straws and reasonable affordable alternatives are available.

Because Provincetown has a duty to protect the natural environment, the economy, and the health of its citizens, this amendment proposes to ban the sale or dispensing of single use plastic straws, including those made from polyethylene, polypropylene, and polystyrene, by any food establishment, retail establishment, or public venue in the Town of Provincetown.

13-8-2. Definitions

“Plastic straw” shall mean any single use plastic straw including but not limited to those made from polyethylene, polypropylene, and polystyrene.

“Food Establishments” shall mean any operations including without limitation schools, farmers markets and other public venues that store, prepare, package, serve, vend or otherwise provide food for human consumption. Any establishment requiring a permit to operate in accordance with the State Food Code, 105 CMR 590.000, et. seq., shall be considered Food Establishments for the purposes of this bylaw.

“Retail Establishments” shall mean any commercial business facility that sells goods directly to consumers including but not limited to grocery stores, pharmacies, liquor stores, convenience stores, retail stores and vendors selling clothing, food, and personal items, dry cleaning services, theaters and all other food services establishments.

“Public Venues” shall mean operations including but not limited to meeting halls, churches, Town offices, the Senior Center, Recreation Department, Library, and the Provincetown Elementary School.

13-8-3. Use Regulations

13-8-4. Administration And Enforcement

This Bylaw may be enforced by any Town Police Officer or agent of the Board of Health through any lawful means in law or in equity, including but not limited to non-criminal disposition pursuant to MGL Chapter 40 Section 21D and Article VII General Section 37. Penalties And Enforcement of the Town’s General Bylaws. If non-criminal disposition is elected, then any Establishment which violates any provision of this Bylaw shall be subject to the following penalties:

First Offense:	\$100 fine
Second Offense:	\$200 fine
Third and Subsequent Offenses:	\$300 fine for each offense

Offenses occurring within two years of the date of first reported offense will be considered as subsequent offenses. Each day or portion thereof shall constitute a separate offense, to do or act anything thereon.

The Board of Health, after a hearing conducted in accordance with the procedures set forth in 105 CMR 590.14 and 590.15, may suspend or revoke the food service permit for any establishment failing to comply with this Bylaw.

15-7. Procedures for review of applications.

15-7-1. Applications: Any person who desires to obtain a Certificate from the Commission shall file with the Commission an application for a Certificate of Appropriateness, of Non-Applicability, or of Hardship, as the case may be. The application shall be accompanied by such plans, elevations, specifications, material and other information as may be reasonably deemed necessary by the Commission to enable it to make a determination of the application. The Commission shall determine whether said application involves any Exterior Architectural Features which are within the jurisdiction of the Commission. The Commission shall determine promptly, and in all events within fourteen (14) days of the filing of an application for a Certificate whether said application involves any Exterior Architectural Features which are within the jurisdiction of the Commission, except for administrative approvals as provided in Section 7.5.

15-7-2. Certificates of Non-Applicability: If the Commission determines that an application for a Certificate does not involve any Exterior Architectural Features, or involves an Exterior Architectural Feature which is not subject to review by the Commission under the provisions of this bylaw, as provided in Section 9, the Commission shall forthwith issue a Certificate of Non-Applicability.

15-7-5. Administrative Approvals: If an application for a Certificate involves an Exterior Architectural Feature which is subject to review by the Commission under the provisions of this bylaw, but the proposed Alteration clearly conforms to the purposes of this bylaw and Guidelines because the Alteration is merely a replacement of an existing design element, which is allowed under M.G.L. c. 40C, §9, and, therefore, is insubstantial in its effect on the District, the Application shall be placed upon the next available meeting agenda, and may be approved by the Commission, or a sub-committee as appointed, as an administrative approval without a public hearing or notice to abutters.⁶³

15-7-6. Certificate of Hardship: If the Construction or Alteration for which an application for a Certificate of Appropriateness has been filed shall be determined to be inappropriate and therefore disapproved, or in the event of an application for a Certificate of Hardship, the Commission shall determine whether, owing to conditions especially affecting the Building or Structure involved, but not affecting the District generally, failure to approve an application will involve substantial hardship, financial or otherwise, to the applicant. In such cases, the Commission shall issue a Certificate of Hardship provided such application may be approved without substantial detriment to the public welfare, and without substantial derogation from the intent and purposes of this bylaw.

15-7-7. Certificate Conditions: In issuing Certificates, the Commission may impose certain conditions and limitations, and may require architectural or plan modifications consistent with the intent and purpose of this bylaw and Guidelines.

15-7-8. Issuance of Certificate: As soon as convenient after such public hearing but in any event within sixty days after the filing of the application or within such further time as the applicant may allow in writing, the commission shall make a determination on the application. The date of issuance of a Certificate of disapproval shall be the date of the filing of a copy of such Certificate or disapproval with the office of the Town Clerk.

15-7-9. Failure to Act: If the Commission shall fail to act upon an Application within sixty (60) days of the filing of the application for a Certificate, or within such further time as the applicant may allow, the Commission shall thereupon issue a Certificate of Hardship due to failure to act. The Commission shall file its determination with the Town Clerk as required under M.G.L. c. 40C, §10(f).

⁶³ Amended October, 2013, STM Article 12

15-7-10. Appeals: Any person aggrieved by a determination of the Commission may, within twenty (20) days after the filing of the notice of such determination with the Town Clerk, appeal to the Superior Court as provided in Chapter 40C, Section 12A. Notice of an appeal must also be filed with the Office of the Town Clerk within twenty (20) days of the determination.

15-8. Criteria for determinations.

15-8-1. Criteria for determinations: In deliberating on applications for Certificates, the Commission shall adhere to the standards established in the Guidelines, as amended, which are part of this bylaw, all of which must be consistent with this bylaw and the requirements of M.G.L. c. 40C. 15-11. Appendices

Appendix 1. Provincetown Historic District Guidelines

1. Statement of Purpose. Provincetown is a unique community; unique in its location, in the degree of its economic dependence on tourism, and in its architectural and cultural heritage. Few towns have so much of their historic architecture still in existence, and maintaining its visual character as a 19th century seaport is of vital importance to the town's economy and way of life. These Guidelines are intended to ensure that alterations and new construction within the District occur in a manner that preserves and respects this unique heritage.

2. General Guidelines.

In the District, the Commission shall determine whether the proposed construction, reconstruction, alteration or demolition of an exterior architectural feature will be appropriate to preserve the character and appearance of Provincetown. Commission members will refer to the Provincetown Survey when reviewing applications to better understand architectural and historic significance.

In the District, each building or structure shall be recognized as a physical and cultural record of its time, place and use. The historic character of a building or structure shall be retained and preserved. The removal of historic materials or alteration of features that characterize a building or structure shall be avoided. Deteriorated historic features significant to the architectural style should be repaired rather than replaced. All architectural changes shall be appropriate either to the original style of the building or structure (if it has not been significantly altered) or to its altered style (if it has been significantly altered to reflect characteristics of a later style). Where the severity of deterioration requires replacement of a distinctive feature, the new feature should match the old in design, color, texture, and the other visual qualities and, where possible, materials. Replacement of missing features should be substantiated by documentary, physical, or pictorial evidence.⁶⁶

2.5A. Demolition. Demolition is defined as the act of pulling down, destroying, removing or razing more than 25% of a building or commencing the work of total or substantial destruction with the intent of completing the same.⁶⁷

 - j. Flagpoles, sculpture, mailboxes (freestanding or attached), window boxes, house numbers, and garden furniture.
 - k. Buildings that are less than 50 years old are exempt from review, with the following conditions: Alterations which affect more than 25% of a façade must comply with the Guidelines. - 4. Limits of jurisdiction.** Review under this bylaw shall be limited to those Exterior Architectural Features, which are visible from a Public Way, as defined under the bylaw. The term “Public Way,” however, shall not include a foot path, cart path or any easement or right of way that does not constitute a public way or public street.

- b. Entirely new windows may be added provided they do not detract from the historically accurate arrangement of windows.
- c. Windows determined to be significant by the commission may be restored at the applicant's request.⁷¹
- d. When the applicant requests replacements, they can choose one of the following types of sash, and this will be specified in the decision:
Wood, single pane true divided light. Non-insulated.
Insulated energy efficient true divided light double pane. These have a true muntin bar as a true divided light single pane window does.
Insulated energy efficient simulated divided light double pane. These have permanently applied interior and exterior split muntin bars with a filler piece between the glass.
All of the above may have exterior cladding of aluminum, vinyl or other appropriate material.
- e. The muntin pattern must be appropriate to the original style of the building, or to its altered style, if that style has gained significance. Muntins, whether structural or permanently applied, must have an exterior three-dimensional profile of an appropriate width.

Alterations should retain and reflect the historic characteristics of the building, including appropriate materials, proportion, and design.
- i. Solid vinyl windows will be allowed in certain cases for non-significant windows.
- j. Storm windows are permitted. These may be triple track aluminum with half screens. Traditional removable interchangeable full storm window and screens are also allowed and should approximate and or compliment in style, material, and color, the window sash. Permanently applied half screens are also allowed and should approximate and or compliment in style, material, and color, the window sash.
- k. Shutters: When used, shutters shall be made of wood or of a material, approved by the Commission, and be of a design appropriate to the style and period of the building. Each shutter shall match the height and one-half the width of the window opening. It is recommended that the shutters be installed on shutter hardware and be operable or made to appear operable, and be hung in a manner consistent with traditional installations.

⁷¹ Attorney General did not approve portion of motion that read "rather than be upgraded to meet current building codes."

- l. Exterior window trim must duplicate or closely replicate the appropriate size and architectural style of the structure. Alternative building materials that are manufactured to resemble the original material may be permitted.
- 6. Entrances/Doors**
- a. Original or historically significant doors, vestibules, steps and porches shall be retained or replaced-in-kind. Replacement doors, if necessary, shall match the original in material, size, and design. Decorative features (such as transoms, sidelights, door hoods, brackets, columns, balusters and pediments) shall be retained and repaired or replaced-in-kind, and may not be removed.
 - b. New doors may be added, or existing doors moved, provided they do not detract from an original or architecturally significant elevation.
 - c. In commercial entrances, replacement doors must be compatible in design and material to the storefront, or to the original style of the building.
- 6.1 Exemptions.**⁷² If it is the determination of the Building Commissioner that a doorway, vestibule, step or porch is significant means of egress and is currently not of a size or style to accommodate emergency egress from the structure, than the size and style of door, vestibule, step or porch may be altered to comply with Massachusetts State Building Code 780 CMR Sixth Edition or its successors. Such alterations shall be in keeping with the remaining intent of this bylaw.
- 7. Roof cladding.** Traditionally, most roofs were clad in cedar shakes, except for a few high Victorian-era examples that were clad in slate. It is encouraged, but not required, that traditional wood shake shingles be used when recladding a roof. Asphalt shingles are allowed, and should be of appropriate color, size and shape.
- 8. Roof dormers, alterations and additions**
- a. Dormers and other roof alterations and additions are permitted under the following criteria:
 - i. Preserving original roof slope unchanged at either side of alteration;
 - ii. Use of materials which are appropriate to the surrounding original roof and siding materials;
 - iii. If replacing missing features, such as cupolas or chimneys, such replacement should be based upon historic evidence.
 - b. Chimneys: Chimneys are an important component of many historic structures in Provincetown. It is required that, whenever possible, original or later important chimneys be retained and repaired.
 - c. Skylights: Skylights with flat profiles are allowed on all elevations. Approval will be based upon size, number, and location of skylights. The goal is to ensure that skylights do not dominate the appearance of a roof slope.
- 9. Roof decks, decks and porches.** Roof decks may be permitted under the following criteria:
- a. The size and location of the roof deck should not dominate the roof.

⁷² Amended April, 2006, ATM Article 27

- b. Roof decks should be located to be minimally visible from a public way, and detailed to reflect a historic roof walk, if appropriate to the building and site.
 - c. Railing design should consist of wooden railings with captured balusters. Decks and porches extending beyond the façade plane of a building may be permitted provided the deck supports do not obscure significant architectural detail. New decks should be detailed in a manner appropriate to the building.⁷³
- 10. Commercial Storefronts.**⁷⁴ Historic or architecturally significant storefronts shall be preserved or restored to the greatest extent possible, while keeping in mind that public safety is of significant importance and as such, alterations necessary to maximize safety as determined by the Building Commissioner will be allowed. Said alterations shall be in keeping with the intent of this bylaw. Alterations of other storefronts shall use materials and be of a design compatible to the overall character of the historic commercial setting. The addition of new storefronts in historic façades shall retain the character and design of the building as originally designed, or as altered if such alteration has gained architectural or historic significance.
- 11. Fences.** The typical Provincetown front yard enclosures throughout the 19th century and into the 20th were some version of the wood picket fence. Such fences were 30” to 48” tall, simplicity and linearity were emphasized; in many fences no visible posts interrupted the unbroken run of pickets, decorative posts were used at corners and gates. It is encouraged that such yard enclosures be preserved or replicated. Existing fences that reflect these characteristics should be preserved and maintained. Chain link, concrete block, and light gauge metal are inappropriate fencing material for front or side yards and will not be approved.
- 12. Siding.** Clapboards, cedar shingles, board and batten, and flush board siding are the predominant exterior siding materials for Provincetown commercial and residential buildings. Synthetic siding will be approved on a case-by-case basis.⁷⁵
- 13. Outside stairs.** Outside stairs will be allowed, if required, and will be reviewed on a case-by-case basis. Considerations for approval include material, design, and location.
- 14. Demolition.** Demolition or partial demolition of buildings or structures is prohibited, except when in the opinion of the Commission warranted for extraordinary circumstances. Demolition or partial demolition of later additions that are not architecturally or historically significant may be permissible and are subject to review on a case-by-case basis. Nothing in these guidelines shall be construed to prevent the meeting of requirements certified by a duly authorized public officer to be necessary for public safety because of an unsafe or dangerous condition or to prevent any construction or alteration under a permit duly issued prior to the effective date of the bylaw.
- 15. New construction and additions.** Design guidelines for new construction or additions are intended to ensure that such work occurs in a manner that respects Provincetown’s unique heritage. The Commission shall consider the

16-3. Jurisdiction

16-3-1. Tree Warden

This bylaw applies to all public shade trees and town trees in the Town. The Tree Warden shall have jurisdiction over all trees to which this bylaw applies and as set forth in G.L. c. 87, s. 2.

16-3-2. Coordination With Other Town Regulators

If any public shade tree or town tree may be impacted by construction, demolition or excavation activities under the jurisdiction of the Town’s Building Department, Planning Board, Zoning Board of Appeals, or other Town Department or Board, such regulatory agency shall (1) require the owner of the affected property and any person engaging in such activities to comply with the provisions of this bylaw and (2) notify the Tree Warden of such activities.

16-3-3. Planning Board

For projects that require Planning Board Site Plan Review or Special Permit, the provisions of Sections 16-4-2 and 16-5 of this bylaw shall be waived and all tree and landscape requirements shall be made part of the Planning Board Site Plan Approval or Special Permit. The Planning

Department shall forward Site Plan Review and Special Permit applications to the Tree Warden for review and comment. No Site Plan Approval or Special Permit shall be issued without written comments from the Tree Warden, unless such written comments are not received by the Planning Board within 30 days of the date the application is submitted.

16-4. Activities Requiring a Permit

16-4-1. A public shade tree or town tree may not be trimmed, pruned or removed by any person other than the Tree Warden until and unless the Tree Warden issues a written permit pursuant to this bylaw.

16-4-2. Such a permit shall also be required of any person for (1) planting a public shade tree or town tree, (2) engaging in construction or demolition activities within the drip line of a public shade tree or town tree, and (3) engaging in excavation activities that may disturb a public shade tree or town tree, including but not limited to the installation of utility lines.

16-5. Tree Planting

The Tree Warden shall issue standards for planting public shade trees and town trees for which a permit is required under Section 16-4-2. Such standards shall include (1) listing of trees acceptable for planting, (2) site selection, (3) priorities for tree planting locations, (4) spacing of street trees, and (5) planting guidelines.

16-6. Prohibited Activities

It shall be unlawful for any person to engage in any of the following activities relating to public shade trees or town trees: (1) topping tree branches, (2) stubbing tree branches, (3) girdling tree trunks, (4) cutting or poisoning tree roots, (5) causing any other kind of injury, and (6) pollarding the top and branches of a tree if done by any person other than a certified arborist.

16-7. Permit Application Procedures

16-7-1. A person who wishes to initiate any activity affecting a tree for which a permit is required under this bylaw shall submit an application to the Tree Warden in accordance with application requirements issued by the Tree Warden. Application forms shall be available at the office of the Town Clerk and the office of the Tree Warden. There shall be no fee for filing an application.

16-7-2. The permit issued by the Tree Warden may specify schedules, terms, and conditions as deemed appropriate by the Tree Warden. For activities except removal, the Tree Warden shall issue or deny the permit within fourteen (14) calendar days of receipt of a completed application. A permit shall be valid for one hundred twenty (120) days from issuance unless the permit specifies otherwise.

16-8. Public Hearing

16-8-1. Except as provided in G. L. c. 87, s. 5, the Tree Warden shall not remove a public shade tree, or grant an application to any person for the removal of a public shade tree, without first conducting a public hearing. Where a public hearing is required, the Tree Warden shall, in accordance with the provisions of G. L. c. 87, s. 3, issue a notice of the time and place of the hearing, which notice shall identify the size, type and location of the tree to be cut down or removed. The Tree Warden shall also post the notice in two or more public places in Provincetown, including the Town's website, and in public view upon the tree at least seven (7) days before such hearing and publish it in a newspaper of general circulation in Provincetown once in each of two successive weeks, the first publication to be not less than seven (7) days before the day of the hearing, or if no such local newspaper exists then in accordance with the provisions of G. L. c. 4, s. 6. The costs of notice, posting and publication shall be borne by the applicant.

16-8-2. When a public hearing must be held under the provisions of this bylaw and also under G. L. c. 40, s. 15(c), Scenic Roads Designations, such hearings shall be consolidated into a single public hearing before the Tree Warden and the Planning Board.

16-8-3. When the public shade tree to be removed is on conservation lands managed by, or resource areas or their buffer zones under the jurisdiction of, the Provincetown Conservation Commission, the public hearing required under the provisions of this bylaw shall be consolidated into a single public hearing before the Tree Warden and the Conservation Commission.

16-9. Approval Criteria

The Tree Warden shall approve removal of a public shade tree or town tree under this bylaw upon a determination that one of the following criteria is satisfied:

16-9-1. The tree interferes with structures, utilities, streets, sidewalks or proposed necessary improvements for which there is no alternative;

16-9-2. The tree is dead, diseased, terminally injured, in danger of falling, dangerously close to existing structures, causing disruption of public utility service, causing drainage or passage problems upon rights-of-way, or posing a threat to pedestrian or vehicular safety; or

16-9-3. There is no alternative to removal of the tree as determined by the Tree Warden.

16-10. Mandatory Applicability of State Standard

In accordance with the provisions of G. L. c. 87, s. 4, the Tree Warden shall not remove or grant a permit for the removal of a public shade tree if, at or before the public hearing required by this bylaw, objection in writing is made by one or more persons, unless such removal is approved by the Select Board.

16-11. Appeals

Any decision of the Tree Warden under this bylaw may be appealed to the Select Board. The appeal must be in writing and must be received by the Select Board within thirty (30) calendar days of the issuance of the Tree Warden's decision. The Select Board shall make a final decision within thirty (30) calendar days from the date of receipt of the appeal request.

16-12. Tree Replacement

Any person who removes a public shade tree or a town tree, including the driver of any vehicle that knocks down or severely injures such a tree, shall be required to replace it, within twelve (12) months of the date of its removal, at such person's cost, and in accordance with the permit application procedures set forth in Section 16-7, as follows:

16-12-1. The replacement tree shall be purchased from a certified tree nursery professional approved by the Tree Warden. Such professional shall plant and ensure the health of the tree for three years.

16-12-2. The replacement tree shall be of the same or similar species or such other species as deemed advisable by the Tree Warden and shall have the same or equivalent size as measured in DBH inches as that of the tree that was removed.

16-12-3. If a tree of equivalent size cannot be obtained or is not appropriate, the Tree Warden shall determine a suitable alternative including planting two or more smaller replacement trees that are the largest available and appropriate for transplanting, and payment to the tree fund for the value of the tree that was removed, as determined by a certified arborist based on standards in the industry.

16-13. Emergencies

16-13-1. Pruning or removal shall be allowed without a permit for any public shade tree or town tree that is determined by emergency response officials to create a public hazard so as to immediately endanger public safety or cause an immediate and severe disruption of public services. Such officials shall complete a written record of any such determination and submit it to the Tree Warden within fourteen (14) calendar days of such determination.

16-13-2. The Tree Warden may waive the provisions of this bylaw as an emergency response to a hurricane, windstorm, flood or other act of nature.

16-14. Enforcement

16-14-1. Any person who violates any provision of G. L. c. 87, s. 3-5, relating to the trimming, cutting or removal of public shades trees shall be subject to fines of up to \$500 for each separate offense, as provided by G. L. c. 87, s. 6. Where any person violates any provision of this bylaw but not the provisions of G. L. c. 87, the person shall be subject to fines of up to \$300 for each separate offense. Each act causing damage to a separate tree shall constitute a separate offense. Each day that a violation continues shall constitute a separate offense. Fines shall be assessed and collected under G. L. c. 40, s. 21D process.

16-14-2. These remedies shall not be in derogation of the Town's right to enforce the provisions of G. L. 242, s. 7, against any person who without a permit willfully cuts down, girdles or otherwise destroys a public shade tree or town tree, or the Town's right to apply or enforce any other Massachusetts law or Town bylaw.

16-14-3. Fines and damages paid to the Town under this bylaw, G. L. c. 87, or G. L. c. 242, shall be paid into the Tree Revolving Account.

16-15. Severability

If any part of this bylaw is for any reason declared invalid or unconstitutional by any court, every other part shall continue in full force and effect.
